

## LTC Gaskets- The ONLY PTFE Gasket Designed For FRP Flanges

U.S. Patent #6,682,081

### Full-Face, Proprietary PTFE Carrier:

- Low Creep PTFE Carrier Reduces Bolt Load Loss
- Full-Face Construction To Safeguard Against Flange Breakage

### Soft, Expanded PTFE Sealing Rings:

- Sealing Ring Area Designed To Achieve Full Compression With Available Bolt Load

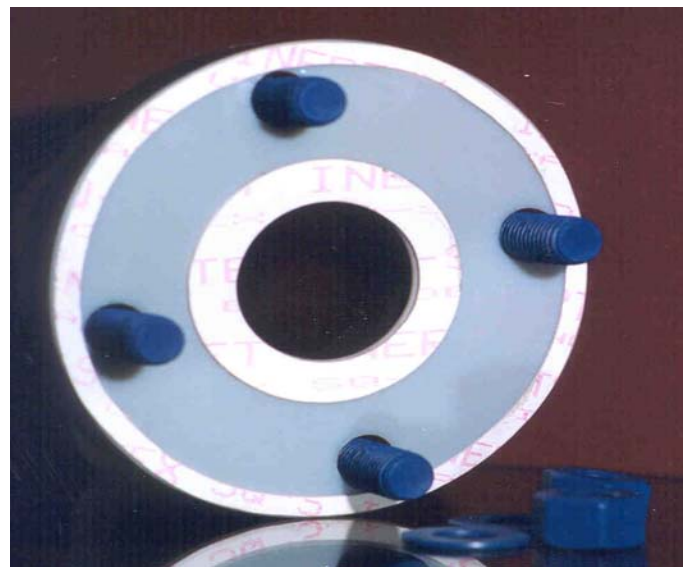

### Two Styles:

- LTC
- LTC-NR

LTC

(Low Torque Composite) Gasket

LTC- NR

Low Torque Composite- Non-Rotation

**Designed to Achieve Full Compression at the Low Bolt Torque  
Allowed by the Flange Manufacturer (ex. 20 ft-lb w/ NPS 2 x 150)**

## **Low Torque, Composite Gaskets- Successfully Sealing FRP**

*Another VSP Technologies Innovation for Industry*
