The VSP PEG gasket was developed as a hard gasket that easily fits the GATX beveled lid manway styles.

(GATX #3, #6, & #7)

Standard Hard Flat 1/4" Gasket

The angular orientation of the beveled lid groove can result in a difficult installation when utilizing a traditional hard and rigid 1/4" thick flat gasket.

VSP Technologies deploys a team of Engineers and Fluid Sealing Specialists who provide engineered solutions for your unique sealing requirements.

VSP PEG Gasket Fits GATX #3, #6, & #7

VSP PEG Gasket

VSP Technologies developed an innovative solution for challenges in the industry. The PEG gasket was designed to match the angular orientation of the beveled lid groove as shown.

VSP PEG Gasket	
Material	Proprietary Blend of Carbon, Graphite, and PTFE
Temperature Range	-450°F to +500°F
Operating Pressure	Vacuum to 3,000 psig (200 bar)
Chemical Resistance	Broad Spectrum Chemical Resistance, VSP Can Confirm
Stability	Not Subject to Aging Can be Stored Indefinitely
