OEM Manufacturers

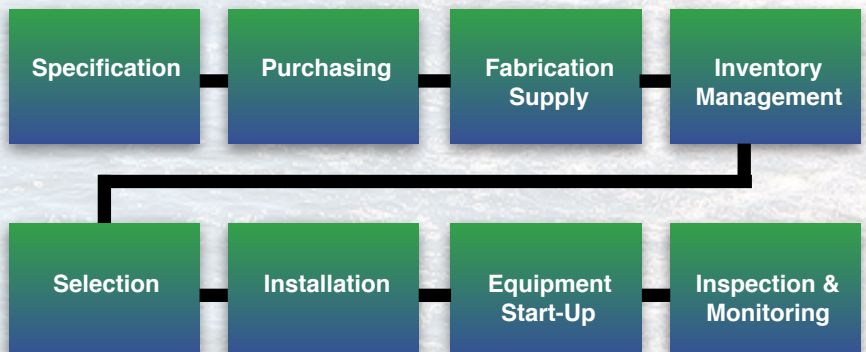

VSP Technologies has worked with some of the largest OEM Manufacturers and been a trusted supplier to U.S. Power Utilities for nearly 40 years.

Whether you need quality fluid-sealing products designed for reliability and safety, or expert advice and installation support, VSP Technologies is at your service.

Thanks to less downtime, 6-sigma process fluid sealing improvements, installation training and access to our experts, VSP customers have reported over \$100 million in documented cost savings!

VSP Technologies, utilizing a Six Sigma approach, works with customers to develop comprehensive fluid sealing management protocols. Coupling its deep engineering resources with decades of fluid sealing expertise, VSP can tailor a program to fit the unique needs of your power plant.

VSP Technologies deploys a team of Engineers and Fluid Sealing Specialists who provide tailor-made solutions for your unique sealing requirements.
