

VSP KAPT™ Bottom Outlet Cap Gasket Solution

VSP KAPT™ gasket is a unique solution that combines the durability of PTFE with the flexibility of rubber without sacrificing sealing performance. It is manufactured and designed specifically for 4" threaded caps on general purpose tank car bottom outlet connections. Testing has confirmed that it maintains a leak-free seal after multiple re-uses and the materials of construction have a broad range of chemical compatibility. The result is increased reliability, reduced total cost of ownership, and elimination of waste.

Features

- ▶ Long-term reusability
- ▶ Near universal chemical compatibility
- ▶ Flexible ID/OD for easy installation & removal
- ▶ Sized for standard 4" bottom outlet threaded caps

Physical Properties & Performance Results

Color	Green & White
Dimensions	3-1/2" ID x 5-1/4" OD x 1/4" THK
Material	Glass microsphere-filled PTFE & virgin PTFE
Reusability ¹	15+

¹Based on laboratory testing

VSP Technologies deploys a team of Engineers and Fluid Sealing Specialists who provide engineered solutions for your unique sealing requirements.
